New Jersey Roofing Contractor Completes New Roof Project For Miele, Inc. in Princeton, NJ

Princeton, NJ June 9, 2011 – Joseph David Roofing today announced the completion of a series of repairs at the Miele, Inc. building in Princeton, NJ. The repairs were done using Tremco roofing products, which are high quality, durable repair and replacement roofing materials.

The building had been having major leaking problems for years, so Joseph David Roofing removed all the existing sealant from the coping stone and resealed using Solar Seal 900 over the top of the coping stone and applied two coats of Andek Polaseal MA concrete sealer. Since the job was completed, there has been torrential rain and the leaks have stopped.

Miele, Inc also signed a yearly preventive roof maintenance contract with Joseph David Roofing, Co. This maintenance contract includes semi-annual visits to the roof. The company removes any existing debris and provides pictures and written status reports to the customer. This will prevent any minor damage from becoming a major problem.

About Joseph David Roofing – Joseph David Roofing offers a complete range of repair, and installation services for residential and commercial properties, some of which include services such as roof repair, gutter and siding replacement. All of Joseph David Roofing employees must pass a rigorous background and screening process that includes a criminal background check. Joseph David is fully licensed, bonded and insured. Joseph David Roofing is ready when you need them! For more information please visit us at www.jdavidroofing.net.
