West Windsor, New Jersey Roofing Company Completes EPDM Roof For The Goddard School

West Windsor, NJ April 28, 2011 – Joseph David Roofing today announced the completion of The Goddard School in West Windsor, New Jersey. After discovering several leaks in the school, the roofing company proposed a system that included installing a layout of 1” of Polyisocyanurate rigid foam installation and a new 60-mil Mule Hide TPO White Thermoplastic membrane roof system.

The completed project provided The Goddard School with a new watertight 15 year warranty membrane roof system and a more thermally efficient building. Cost advantages are realized through energy savings; thermal efficiency optimizes the benefits of solar gain, reducing the need for heating fuel while also significantly decreasing the energy used for cooling.

About Joseph David Roofing – Joseph David Roofing offers a complete range of repair, and installation services for residential and commercial properties, some of which include services such as roof replacement and repair, gutter and siding replacement. All of Joseph David Roofing employees must pass a rigorous background and screening process that includes a criminal background check. Joseph David is fully licensed, bonded and insured.
